Discussion on GEC grants and if the town still wants to still pursue the grants as now the state is now offering additional aid for roads. We will still need more information on how this will work to try to get additional funds from the state. State funding is a One time 2020 deal with matched funds. We would need to take out a loan to get access to the additional funds. Board decided to hold off on the GEC grants till we find out more about the state funding. Board stated requested to see if GEC will review the roads and how much that would cost. Val will contact GEC to see if they will tour roads. State funding is a better option at this time and will wait to get answers on state funding. The state grants program will pay 9 to 1 in funds.
